BILLY SUNDAY MAY SPEAK IN MAYSVILLE DURING BIG REVIVAL

World Famous Evangelist may come to Maysville for a Monday During His Special Campaign in Cincinnati.

"Billy" Sunday, the world-famed evangelist, has been invited to speak in Maysville on Monday, March 14th, and the special committee which is planning his Monday rest trips is being urged to book the great preacher to Maysville for that day or some other Monday during his stay in Cincinnati.

Mr. Sunday begins a great evangelistic campaign in Cincinnati on next Sunday and it is likely that scores of Maysville people will make special trips to the Queen City during this revival to hear the great speaker. The special committee has made great preparations for the Cincinnati meeting and it is expected that it will be the greatest revival effort ever made there.

It is Mr. Sunday's custom to spend every Monday during his campaign in large cities as a rest day by getting away from the city to some of the smaller towns or cities in the district for a mid-day service, returning to his revival for Monday evening. Knowing these facts, Rev. John A. Davis, pastor of the First Baptist church, has asked the committee that they send the big revivalist to Maysville on Monday, March 14th, for a rest and if the committee makes this assignment plans will be made for as many as possible to hear Mr. Sunday's one sermon here. Three members of the committee have promised Mr. Davis, they will do their best to have Mr. Sunday come to Maysville on the date stated and he is now anxiously awaiting their decision which cannot be made until after Mr. Sunday and his workers are in Cincinnati.

ARCHITECT TO OFFER PLANS FOR SUNDAY SCHOOL BUILDING.

A Cincinnati architect will meet here today with the officers of the local Christian church to discuss the plans for a proposed Sunday school addition to the church building. It is proposed to erect a new building in the rear of the church building to contain about twenty separate Sunday school rooms. Plans will be submitted to the officers and the special building committee at an early date and it is likely that work will be started soon.

Miss Nellie Haffey will teach a class in Bookkeeping. Phone 713. 23-6t.

MR. MERZ SAYS "THE KID" IS GOOD

Maysville Merchant, Now in New York, Says Chaplin Picture Is a Real One.

Colonel J. Barbour Russell has received the following letter from Mr. A. L. Merz, who is now in New York on business:

"I note that you have booked 'The Kid' with Charlie Chaplin. 'Wish to inform you that you have booked the best picture now running in New York to crowded houses. Everyone who has seen this picture has raved about it. There are many laughs and many tears. I would impress upon the public that 'The Kid' is entirely different from any picture that Charlie Chaplin has ever featured. It is six reels of real interesting entertainment, and when the end comes you regret that this picture was not longer."

"If my recommendation of 'The Kid' means anything to you, you are welcome to use same, as I consider it one of the best features I have ever seen."

BRACKEN COURT STARTS ON NEXT MONDAY.

The March term of the Bracken Circuit Court will be opened at Brooksville on next Monday by Judge C. D. Newell. There are some rather important civil actions on the docket for this term of court but little criminal court. The March term of the Mason Circuit Court will begin on Monday, March 28th.

CONGRATULATIONS.

His many local friends are congratulating Mr. Lee Haucke, the expert sign writer at Shafer & Watkins', today, this being his birthday. None of Lee's friends who know are telling him age but they all join in wishing him many happy returns of the day.

LOCAL HEALTH DEPARTMENT STEPS UP A NOTCH.

The weekly report from the State Board of Health for the week ending February 19th shows that the Maysville Health Department has left the last place in the standing of the six organized health departments in Kentucky and is now holding fifth place with the Harlan county department taking last place.

Manager Triebel, of the Pastime Theater, personally vouches for his offering for Wednesday. He recently saw this picture in Cincinnati and says it is an unusually good one.

WHISKY AS OUTLAW DEFIES THE STATE SAYS THE GOVERNOR

Governor Morrow, in Refusing Pardon to Bootlegger, Says, "Spirit of Utter Evil Challenges Authority."

Frankfort, Ky., March 1. — "Whisky as an outlaw defies all law and becomes only a spirit of utter evil and the Commonwealth has reached the condition where its authority to maintain law and order is being openly, persistently and brazenly challenged," said Governor Edwin P. Morrow in a statement issued here Monday setting forth his reasons for refusing a pardon to Charles Reed, convicted in the Lincoln Circuit Court on charges of bootlegging. Reed was convicted of bootlegging on four counts and fined \$100 and sentenced to serve from forty to fifty days in jail on each count. He also was convicted of maintaining a common nuisance and fined \$3,000.

Plea for a pardon was made to Governor Morrow, based on alleged ill-health of Reed, who, it is said, is not in the state and was not present at any of his trials. After reciting the facts in the case and stating that no physician's certificate accompanied the application, Governor Morrow said:

"It is evident from the number of convictions against him that for some very considerable time he carried on a business of violating the prohibition law by the continued sale of whisky and that this grew to such an extent that it became a common nuisance in the neighborhood. The sale of whisky in the manner indicated by these convictions becomes a business, and the place of this unlawful business becomes a resort of criminals of all classes; the rendezvous of every spirit that defies authority. Sales are made at such a place without regard to age, and such a place becomes a festering ulcer in the life of a community."

"Whisky is an outlaw, defies all law and becomes only a spirit of utter evil. The Commonwealth has reached the condition where its authority to maintain law and order is being openly, persistently and brazenly challenged by the impudent, open and notorious violations of the prohibition law; by threats of lawbreakers against informers; intimidation of those who oppose this illegitimate business, and by influences coming from this business which threatens to corrupt the source of all authority. The violation of this law is far worse than the ordinary evils of drink. It has become a sinister power which seeks to corrupt the law itself; to subvert the agents of law enforcement into participation and partnership in the commission and palliation of crime."

TIME FOR PICTURE SHOWS HAS BEEN PERMANENTLY FIXED.

According to the length of the picture shown, the management of the Washington and Gem Theaters have been changing the time of their shows from night to night beginning either at 7 or 7:15 p. m. This has been the source of much complaint and the management of the theaters has decided to start all shows in the future at 7 and 8:30 p. m. Afternoon shows at the Gem will be at 2 and 3:30 p. m.

FIRST PICTURES AT HIGH SCHOOL ON NEXT MONDAY.

Work on installing the equipment for the moving picture outfit at the Maysville High School is now about completed and arrangements are being made for the initial entertainment with the use of this new equipment. It is hoped that the work will be completed so that the first entertainment may be given on next Monday evening. Due announcement will be made, however.

FIRE ENGINE DAMAGED IN RUN TO EAST END.

The fire fighting automobile "Uncle Bob" is on duty at Fire Station No. 1 while the "Kinney Mack" is undergoing repairs made necessary by certain breaks the machine received in answering an alarm in the Sixth ward on last Friday. In such cases as the present one, the wisdom of having the "Uncle Bob" is thoroughly demonstrated.

MR. WEIS BECOMES TRAVELING SALESMAN.

Mr. William Weis, who recently sold his meat business in Market street, left yesterday for Indianapolis, Ind., where he will accept a position as a traveling salesman for the Presto-Light Manufacturing Company. Mr. Weis is well qualified for such a position and we predict for him much success in this line of work.

RIVER EXCURSION SEASON TO OPEN EARLY IN MAY

Palatial Excursion Steamer East St. Louis To Make Two Trips Out of Maysville During May—First Trip Up-River.

Captain W. C. Cosgrove, of Limestone street, announced today that he had made plans to bring his excursion steamer East St. Louis to Maysville in early May. This will be the first trip this new steamer has made into this section of the Ohio although all last season she operated out of the city of Louisville.

The East St. Louis is the largest and most palatial steamer on the upper Ohio River at this time being much larger than the Homer Smith, regarded, up to this time, as the largest excursion steamer in this district. The East St. Louis measures 50x275 feet overall and has a registered carrying capacity of 2000 passengers. She is fitted up with a dancing floor 20x225 without a post and carries a six-piece jazz orchestra. The steamer has six decks and a beautiful palm garden. There are 55 men in the crew. Thousands of electric lights are scattered in all parts of the steamer and she is said to carry the most expensive callopes afloat.

Captain Cosgrove is taking the new steamer up the river as far as Parkersburg before opening the season at Louisville and has made arrangements for a Sunday trip to Cincinnati on May 8th which is the day for the first Sunday game at home for the Cincinnati Reds. Returning the East St. Louis will run a moonlight excursion out of Maysville on the evening of May 20th.

KENTUCKY WHISKY TAX HELD TO BE INVALID

United States Supreme Court Holds That Kentucky Liquor Tax Is Unconstitutional.

Washington, March 1. — Kentucky laws levying a special tax on liquors withdrawn from bonded warehouses were held invalid Monday by the Supreme Court.

Several millions of dollars in taxes already collected by the state were involved.

The court sustained lower courts which had granted an injunction to the Kentucky Distiller and Warehouse Company and the J. and R. Frieberg Company, preventing interference by the state authorities to withdrawals of liquor on which the tax had been paid.

The Supreme Court upheld decrees of the Federal District Court for the Eastern Kentucky district that the law under which the taxes were collected violated both the state and Federal constitutions.

The state argued that there was no competition in the liquor business now and that the tax therefore could not be considered confiscatory.

The opinion of the Supreme Court, which was unanimous, was read by Justice Brandeis.

ALLIES REJECT REPARATIONS OFFER OF GERMAN DELEGATES

Lloyd George Tells German Delegates There Is No Need to Read Their Proposition If It Was as They Stated at Conference.

London, March 1. — Germany, through delegates to the conference with the Allied representatives here today is reported to have made reparation offers of approximately 30,000,000,000 gold marks, or about \$7,500,000,000.

It was understood, outside the conference that, after Dr. Simons, the German foreign minister, had finished his statement on reparations to the conferees, Mr. Lloyd George, the British prime minister, replied in substance that, unless the Germans had something more to offer than appeared in Dr. Simons's statement, there was no need of continuing the conference.

Mr. Lloyd George is said to have told the German foreign minister: "If the written proposals are of the same general character as the explanation of them, it is not worth while for us to read them. You have a complete lack of comprehension of the position of the Allies and of your own position. We will discuss among ourselves our reply and give it to you tomorrow at 11 o'clock."

When the Germans left the conference they appeared to be greatly depressed. Premiers Lloyd George and Briand were smiling, as they came from the conference chamber.

OUR POLICY

To support such measures as are unquestionably for the good of

of the individual interest, or of one section as against another. And
to earnestly and consistently oppose all things that are not for the good of
of the County as a whole.

POLITICAL VERSUS PATRIOTIC BONUS.

The Democratic press has used up a deal of perfectly good white paper in denunciation of some of the things this present Congress has done, purposes to do or probably will not do. All this, of course, on the theory that the Republican majority is sufficient to control, therefore all sins of omission and commission are chargeable to the legislative account of the grand old party. Now comes a piece of petty partisan political pap distribution started on its way by the Senate Democratic minority, aided and abetted by just enough befuddled Republicans to give it day of grace. These pleasant observations have to do with the bonus amendment to the legislative, executive and judicial appropriation bill.

Some two million of the flower of American manhood went overseas at an average pay of less than fifty dollars a month to stop a deluge of destruction rolling its irresistible billows in this immediate direction. They accomplished their objective. Many of them gave their lives as the price. Among the others can be found evidences of all degrees of sacrifice. Other two million gave up much in preparation to go over, but fortunately were not needed. We, Americans all, were very proud of "our boys" and very grateful to them, while destruction menaced and they intervened. Then we got busy getting even off each other for the price we had paid and the army melted away, lost itself in society, and some of it hasn't found a safe settling place yet.

If this bonus were for those who went into danger or those who were getting ready to go, we would say Amen! But this bonus is for those who hunted soft places at a safe distance from any mechanism more dangerous than a factory machine, a swivel chair, or any arsenal more deadly than the backfiring of some badly manipulated motor car breaking traffic rules in the city of Washington or elsewhere. It calls for an aggregate of some \$15,000,000 to be added to many other millions that have already been paid to this army of ease in salaries and wages of opulent proportions. Meantime the service men who sacrificed for loyalty while these others sought for lucre are told by this same coterie in Congress, and perhaps some others, that the government while really most appreciative of their deeds, and deaths, can not say so in the form of a bonus because it hasn't the money.

The point of these observations is to demonstrate one phase of difference between patriotism and politics, and in this instance most emphatically Democratic politics seeking to hand its own a little something extra.

HOW GERMANY MUST PAY.

Allied experts have figured that Germany can pay indemnity aggregating 220,000,000,000 gold marks, plus a 12½ per cent. tax upon her export trade; all this to be spread over a period of forty-two years.

German experts now are preparing statistics to prove that Germany can not pay that much.

In France and Great Britain the question is: "How much can we get out of Germany during this and the next generation?"

A British economic expert, J. Ellis Barker, a year or so ago, pointed out two huge German resources, either of which, he insisted, would pay the indemnity then demanded by France, considerable higher than that now agreed upon by Allied economic experts.

Germany's coal and potash would square Germany's war debts to the allies nations, Barker said.

He estimated (from pre-war German reports) that in the Rhinish-Westphalian coal fields alone Germany had coal worth (at pre-war mine prices) ten times as much as is now asked of Germany, exclusive of the export tax, which economists recognize would be a high tariff wall against Germany's trade for at least four decades.

The coal in that district, Barker estimated, was worth 2,200 billion gold marks. The Allies experts place the indemnity at 220 billion gold marks (exclusive of export tax).

Germany's immense potash resources (at pre-war prices) would, according to Barker's estimates, yield something like 500 billion gold marks, or more than twice the fixed indemnity.

The trouble, though, lies in the fact that the coal and potash must be mined, and the workers must live while they dig. If the coal and potash could be scooped up, as so much gold in a vault, and transported to the allied treasuries, the solving of the indemnity problem would be comparatively easy.

If Germany could now hand over half her potash, a tenth of her underground coal, and call the bill settled, there would be less wailing and gnashing of teeth beyond the Rhine.

But she can't.

Germany must settle to the stern and hard-wearing task of mining her coal and potash, of turning her other natural resources into gold, or its equivalent, the while she carries on with her own cost of living, and cost of production.

The best terms Germany get will be hard terms—from the German standpoint.

Within the last year the danger to railway travellers of infection from typhoid fever, dysentery, and other water-borne diseases has been reduced to a minimum in most parts of the country through the cooperation of the U. S. Public Health Service with the different state boards of health. Nearly all supplies used on trains for drinking or cooking purposes have been tested by Service engineers and found to be safe, and will be re-inspected periodically.

In the last six weeks nine hospitals for soldier patients have been opened by the U. S. Public Health Service. Of these, four are fine buildings that have been leased from their owners. The others are army hospitals, built hurriedly during the war, that have been taken over and put into as good condition as possible. The demands on the service for accommodation are too great to permit even these flimsy wooden war structures to be refused.

The flea, louse, mosquito, and fly have all been convicted of transmitting disease; and the bed bug has been accused. The U. S. Public Health Service however, finds that he is probably innocent. If he ever does transmit disease he does so by carrying the germs on his mouth and not in his blood; and he can do this effectively only under especially filthy conditions, which would call for drastic methods to exterminate all vermin.

CHARLIE CHAPLIN

CHARLIE CHAPLIN

The daylight trials of motherhood, the midnight trials of paternity are all for Chaplin in the super-comedy. He was a good mother to the Kid, and when the kid grew up, he sure became a good son, for Charlie is a wandering glazier and while the kid went ahead breaking windows Charlie was always at hand to get the job of mending them and yet there's a sob now and then. Well here's where you get something more than laughs. Any one will like this Chaplin picture. It's so different from all the rest. DON'T MISS THIS SHOW or you will regret it. New York Letter

New York. — In a laboratory in the College of the City of New York is the master eavesdropper of the world. Professor Alfred N. Goldsmith has a megaphone there which brings to him words from over the greater part of the civilized world. There is a motor beneath the megaphone and a dial contrivance attached to the motor. Prof. Goldsmith adjusts the needles on the dial and through the megaphone comes the voice of the radio operator on the steamship Gloucester, the vessel which recently established direct wireless telephone connection between the Atlantic and Pacific oceans with the entire breadth of the continent between. Another adjustment and waves are caught from the wireless station at Nauen, Germany, from Lyons, France, from New Brunswick, and from various other parts of the radio-equipped parts of the world.

Tired business men and blonde stenographers were hours late anyway when they managed to get downtown through the ten inches or more of snow the blizzard had buried the town in. Then the crowd bosses who are given to snapping a poor girl's head off if she lingers one instant too long at her back hair before bringing in her note book stood side by side with the same girls, their feet as wet as the girls', and more uncomfortable than them because the stenogs had no wet trousers ends around their ankles—and rubbed each for fully half an hour at the spectacle of the city using tractors for the first time to clear away the snow and open a way for street traffic. The nearest that nine out of ten of these metropolitan yokels had been to a tractor before was

Mrs. WAGNER of PALM BEACH

Tells Girls How She Found Relief From Pain

West Palm Beach, Fla.—"When I was 19 years old I was irregular and I had such terrible cramps it felt like a knife going through me. I took Lydia E. Pinkham's Vegetable Compound and I was cured. After I was married I had the same trouble caused by the added work of farming and heavy washings so I told my husband to get six bottles of the Vegetable Compound and by taking it regularly my troubles ceased and now I never have a pain or ache, and am regular. I recommend Lydia E. Pinkham's Vegetable Compound and think every young girl should take it. You can publish this letter and it may be the means of helping some other girl or woman."

—Mrs. MARY M. WAGNER, Box 759, West Palm Beach, Florida.

While no woman is entirely free from periodic suffering it does not seem to be the plan of nature that woman should suffer so severely and when pain exists something is wrong which should be set right. Every girl who suffers from monthly cramps should give Lydia E. Pinkham's Vegetable Compound a fair trial.

when they saw tanks rumble down Fifth avenue in the Liberty Loan parades, and very few that watched the little machines pull and haul and buck the scrapers and plows through the drifts that baffled teams and autos could realize that out in that great unknown where New York's butter and eggs come from, they are as familiar a sight on the farm as flivvers. The subways buzzed that night with, "Oh, did you see the Cletres downtown this morning?" Most of those that saw came away with the notion that "Cletres" is a common noun describing a great new invention given birth by New York itself, rather than being simply the trade name of a tractor made in Cleveland, Ohio.

The old jesting warning about "wooden money" can now give way to a true one that sounds equally jestful. It's glass money, you have to look out for nowadays. Herman Rogers, an Eight avenue newsdealer, dropped a quarter the other night which had just been given him by a customer; and it smashed into a dozen pieces on the floor. Just painted glass. The customer was caught and another equally fragile piece of silver found in his pocket.

There are compensations to be found in private life. Probably this is admitting an old-time point of view, but it never does seem to me to be an appropriately sentimental thing to have one's betrothal announced through one's publicity agent. That is where the confirmation of the report has been made that Natalie Talmadge, sister of Norma and Constance, is to be married to Buster Keaton, also of the motion pictures. One almost wonders if arrangements of these matters may not be left entirely with the stars' publicity offices, to be acted upon as seems best to them.

"It is time to stop using printer's ink defining boundaries abroad and to use it for finding markets abroad," said Julius H. Reiter, president of the Credit Guide Bankers' Commercial Association and publisher of the Credit Guide, at a dinner of the association held the other night in the Pennsylvania Hotel. "There are markets all over the world for American goods," he said. "And there are factories and workmen all throughout this country capable of making the goods for those markets. Now then, if we want to be prosperous, if we want our labor employed at good wages and our retail men and manufacturers and the rest of us, enjoying the fruits of general prosperity, we must get out and find those markets and sell them. We can do it as well as any other country and we must do it, because when our factories are as busy as they ought to be we produce more than we consume. The newspapers can be of tremendous help in educating us all to the importance of foreign trade. I hope the National Foreign Trade Council at its convention in Cleveland this May will consider seriously the matter of encouraging the press in the work it can do to help."

Citizens of Mahanock, one of New York's most exclusive commuting suburbs, are considerably disturbed over the announcement that the making of "Faust" into a moving picture will be done in their community. "We aren't too stuck up to have our streets commercialized," the repeat. "It isn't that at all. Not at all. But when they say

in the newspaper that 'Mamaroneck has been chosen for the haunt of Me-phistopheles'—well we all know where he lived and we don't care for it. No nat, at all."

One downtown haberdasher realizes the skepticism of the present age, and sees that nothing is taken for granted in his advertising. The other day he put a large sign in his window announcing "Rainy Day Umbrellas \$1."

We've had some pretty nifty burgle with us this season; but the cheekiest one of them all has probably just now come to light. He broke into a police station house and was making away with the clothes of a sleeping cop when the sleeper awoke and caught him exiting through the window. He proved to be a former policeman who had been disconnected from the force nine years ago, and was just getting around to make the most of his acquaintance with the building.

American Red Cross workers in Budapest transform into Christmas presents for destitute children American drygoods boxes which had been sent from chapters in this country filled with warm garments and hospital supplies. Cradles, wheel barrows and sleeping cots are made from them.

Fifty-seven major disasters in the United States in 1920, requiring American Red Cross disaster relief, resulted in 425 deaths, injuries to 2,700 and property loss estimated at \$11,250,000, according to official report from Red Cross National Headquarters.

NEEDIEST COMES FIRST IN RELIEF COUNCIL'S PLAN

Those Most In Need of Food and Raiment Will Be First To Be Cared for By the Commission.

Chicago, Feb. 25. — That the neediest and most undernourished shall be fed first is a governing principle of the European Relief Council's operations in Poland and other war-ravaged countries of Europe. The council is now engaged in raising \$33,000,000 to save the lives of 3,500,000 starving children in Central and Eastern Europe.

It is an interesting fact that, while a local doctor has a place on each district childfeeding committee in Poland and his opinion is considered in determining who are the neediest children.

IS THIS YOUR EXPERIENCE?

Many Maysville People Are Afflicted With Annoying Kidney Ills.

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Maysville people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

George H. King, proprietor grocery store, 615 East Second street, Maysville says: "I have used Doan's Kidney Pills off and on for several years and have been greatly benefited by them. At times my kidneys get out of order and the secretions pass irregularly. I suffered with a severe aching through the small of my back. Whenever I have one of these attacks I use a box or so of Doan's Kidney Pills and they never fail to cure the complaint in a short time." (Statement given November 15, 1916.)

PERMANENT BENEFIT.

On November 22, 1920, Mr. King added: "The cure I spoke about in my former statement has proven absolutely permanent. I haven't had the slightest sign of kidney trouble since giving my testimony in favor of Doan's Kidney Pills in 1916."

Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. King had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

dren in the district, the real deciding factor is 'mutual control between families,' as a writer in the current issue of the American Relief Administration Bulletin terms it.

"It is not so much according to a plan of medical and physical examination," this article continues, "that children who gain entrance to the kitchens are largely selected by 'popular opinion.' The slogan that our 'food is to go only to the neediest children' has been so thoroughly impressed throughout the relief system that it is known by practically every person in the country."

"When, therefore, lists of needy children are made up in any community it is most largely the element of 'mutual control between families' which decides as to the children of which families shall receive aid."

"All the children who enter kitchens receive a card. Those who are neediest receive tickets free of charge and those whose parents have employment or some small means pay the nominal sum of one-tenth of a cent per meal. The small sums raised in this way are used to defray or partially defray the operating expenses of kitchens."

Investigations by the U. S. Public Health Service show that practically all bottle-fed babies thrive as well on powdered milk as they do on natural cow's milk; and that some who do not thrive on the cow's natural milk, do finely on the powdered. The National commission on milk standards urges health and food-control officials to encourage and not to hamper the dried milk industry.

Washington, Feb. 28. — Evidence
obtained by revenue agents in raids
conducted without a search warrant
can not be admitted in court proceed-

than a distillery warehouse, and of
concealing such spirits.

In appealing to the higher court, he
said that the fourth and fifth amend-
ments to the Federal constitution had
